Sebastien Van Den Brempt	Seb.vdb4@gmail.com	Coder and Designer
Jasper Charlinski	jjcharlinski@gmail.com	Coder and Designer

Contact Person: Ethan Posner

## Task Allocation

We will be inserting tasks and allocating them to members in a google sheets spreadsheet. Everyone will have access to this spreadsheet.

We will also use this to track our estimations for how long these tasks will take, and to keep track of our actual time spent on them. We will also keep track of whether assistance was needed on any of our tasks.

## Meetings

Fridays 2:30PM - 4:00PM

If a member is unable to attend a meeting, we will discuss with them why this was the case. We will then decide whether their explanation is satisfactory. If it isn't satisfactory, we will assign them one strike.

Members who aren't able to attend will be caught up with our progress through discord communications.

## Conflict Resolution

### Strikes

- Missing meeting without satisfactory reason = 1 strike
- Not completing work on time = 1 strike

After 1 strike, we will discuss with the member why their actions were unacceptable.

After 2 strikes, we will get Dave involved and ask him about how to proceed.

After 3 strikes, we will again get Dave involved and ask him for guidance. They should probably be removed, but we will let him help us with this decision.
